INDEX

Agenesis of the Lung, 329

Agnew, R. A. L., Spontaneous Hæmopneumothorax. With Report of a Case, 325

Ankylosing Spondylitis and Pulmonary Tuberculosis, 293

Asherson, N., Foreign Bodies impacted in the Œsophagus. A Record of some Unusual Cases, 50

Barter, G. A., Letterer-Siwe's Disease, 139

Blood Sedimentation Rate and Fractional Plasma Viscosity in Pulmonary Tuberculosis, The, 119

Books Received, 78, 153, 250

Borrie, John, Carcinoma of Lung appearing during Treatment of Pulmonary Tuberculosis, 276

Boutros, Adib, Chemotherapy in a Cairo Chest Clinic—A Preliminary Report on the Methods adopted in assessing the Value of Izoniazid, Streptomycin and Paraminosalicylic Acid in 122 Cases of Pulmonary Tuberculosis, 38

Brodhage, Hans, Tuberculostatic Activity of 2-Pyridyl-(4)-1, 3, 4-Oxdiazolon-(5) Its *p*-Amino-Salicylate and Other Related Substances, 185

Bronchial Anastomosis in Resection of Bronchial Adenoma, 245

Bronchial Tuberculosis, 115

Carcinoma of Lung appearing during Treatment of Pulmonary Tuberculosis, 276

Carter, John R., Ankylosing Spondylitis and Pulmonary Tuberculosis, 293

Central Nervous System Complications during I.N.H. Treatment of Pulmonary Tuberculosis, 20

Chemotherapy in a Cairo Chest Clinic—A Preliminary Report on the Methods adopted in assessing the Value of Izoniazid, Streptomycin and Paraminosalicylic Acid in 122 Cases of Pulmonary Tuberculosis, 38

Chesterman, J. T., Indications for Surgery in Bronchiectasis, 174, and Results of Resection for Bronchiectasis, 280

Clayson, Christopher, A Preliminary Enquiry into the Relative Value of Miniature (70-mm.) Films and Large Films in the Radiological Diagnosis of Pulmonary Tuberculosis, 81

Clinical Appraisal of Cyanacetic Acid Hydrazide in Chronic Pulmonary Tuberculosis, A, 9

Control of Pulmonary Tuberculosis in a Group of Industrial Establishments, The, 3

Corridan, J. P., Letterer-Siwe's Disease, 139

Dangers of Bronchography in Pulmonary Tuberculosis, The, 284

Diabetes Insipidus in Association with Pulmonary Tuberculosis. Report of a Case, 316

Dysphagia Pneumonitis following Epidermolysis Bullosa, 142

Editorial, 1

Effect of Streptomycin, Iso-Nicotinic Acid Hydrazide (Isoniazid) and Streptomycin plus Isoniazid in Ocular Tuberculosis in Animals, The, 308

Exfoliative Cytology in the Diagnosis of Bronchogenic Carcinoma (A Critical Review of the Literature), 266

Fegiz, Gianfranco, The Re-expansion of the Lung after Extrapleural Pneumothorax, 112

Fibrous Dysplasia of Rib, 56

Foreign Bodies impacted in the Œsophagus. A Record of some Unusual Cases, 50

Frew, Hugh W. O., A Preliminary Enquiry into the Relative Value of Miniature (70-mm.) Films and Large Films in the Radiological Diagnosis of Pulmonary Tuberculosis, 81

Goodwin, J. F., The Radiological Appearances of the Lungs in Heart Disease, 273

Gordon, W., Bronchial Tuberculosis, 115

Grant, A. F., Post-Operative Renal Failure due to Amyloidosis. Report of Three Cases following Major Surgery for Pulmonary Tuberculosis, 217

Greenberg, M. J., Pneumothorax occurring as a Complication of Artificial Pneumoperitoneum Therapy, 321

Horne, N. W., The effect of Streptomycin, Iso-Nicotinic Acid Hydrazide (Isoniazid) and Streptomycin plus Isoniazid in Ocular Tuberculosis in Animals, 308

Horton, E. H., Diabetes Insipidus in Association with Pulmonary Tuberculosis. Report of a Case, 316

Houston, John, The Blood Sedimentation Rate and Fractional Plasma Viscosity in Pulmonary Tuberculosis, 119

Ibrahim, Attwa, Chemotherapy in a Cairo Chest Clinic—a Preliminary Report on the Methods adopted in assessing the Value of Izoniazid, Streptomycin and Paraminosalicylic Acid in 122 Cases of Pulmonary Tuberculosis, 38

Indications for Surgery in Bronchiectasis, 174

Johnson, J. H. P., An Unusual Case of Bronchial Adenoma, 145

Jones, G. Penrhyn, Post-Operative Renal Failure due to Amyloidosis. Report of three Cases following Major Surgery for Pulmonary Tuberculosis, 217

Keatinge, G. F., The Control of Pulmonary Tuberculosis in a Group of Industrial Establishments, 3

Keers, R. Y., The Surgery of Pulmonary Tuberculosis. A Physician's Viewpoint, 198

Laboratory Background to the Use of Penicillin in Chronic Bronchitis and Bronchiectasis, The, 166

Laryngeal Swabs for Isolation of Tubercle Bacilli, including a trial of Calcium Alginate Wool as Swab Material, 225

Lawrence, J. S., The Blood Sedimentation Rate and Fractional Plasma Viscosity in Pulmonary Tuberculosis, 119

Leahy, Desmond J., Perforation of the Bronchial Wall by a Caseous Gland with Acute Asthmatic Symptoms, 66

Lecutier, E. R., Fibrous Dysplasia of Rib, 56

Letterer-Siwe's Disease, 139

Levitt, Walter M., Radiotherapy in Intrathoracic Disease, 260

Levy, D., Agenesis of the Lung, 329

Linton, J. S. A., Bronchial Anastomosis in Resection of Bronchial Adenoma, 245

Macaskill, J., The Effect of Streptomycin, Iso-Nicotinic Acid Hydrazide (Isoniazid) and Streptomycin plus Isoniazid in Ocular Tuberculosis in Animals, 308

McDonald, I., Prediction of Maximum Breathing Capacity from Timed Vital Capacity, 30

McDougall, J. B., Chemotherapy in a Cairo Chest Clinic—a Preliminary Report on the Methods adopted in assessing the Value of Izoniazid, Streptomycin and Paraminosalicylic Acid in 122 Cases of Pulmonary Tuberculosis, 38

McIntosh, D. G., A Preliminary Enquiry into the Relative Value of Miniature (70-mm.) Films and Large Films in the Radiological Diagnosis of Pulmonary Tuberculosis, 81

McKinlay, P. L., A Preliminary Enquiry into the Relative Value of Miniature (70-mm.) Films and Large Films in the Radiological Diagnosis of Pulmonary Tuberculosis, 81
